

# SHOBHIT SINGH

Ranchi, Jharkhand, India | +91 6205360150 | shobhit.singh\_cs22@gla.ac.in  
LinkedIn: linkedin.com/in/shobhit-singh-51940a267 | GitHub: github.com/CoderShobhitSingh

## PROFESSIONAL SUMMARY

Computer Science undergraduate with a web-development internship and three full-stack projects (MERN, React, REST APIs, MongoDB, SQL). Strong foundation in data structures, algorithms, object-oriented design, and relational databases. Seeking a Software Development Engineer Intern role to build scalable, customer-focused software.

## EDUCATION

**Bachelor of Technology, Computer Science** | GLA University, Mathura August 2022 – May 2026  
CGPA: 7.33/10

**Class XII (Intermediate)** | S.R. DAV Public School, Pundag, Ranchi 2021 | 70.8%

**Class X (High School)** | S.R. DAV Public School, Pundag, Ranchi 2019 | 65.8%

## TECHNICAL SKILLS

**Programming Languages:** Java, JavaScript, SQL, HTML, CSS

**CS Fundamentals:** Data Structures and Algorithms, Object-Oriented Programming, DBMS, Complexity Analysis

**Frameworks and Libraries:** React.js, Node.js, Express.js, MongoDB (MERN Stack), Tailwind CSS, Material UI

**Databases:** MongoDB, MySQL

**Tools and Platforms:** Git, GitHub, REST APIs, JWT Authentication, Postman, VS Code, Eclipse, MS Excel

## EXPERIENCE

**Website Developer Intern** | CodSoft [Month Year – Month Year]

- Developed and maintained responsive web pages using HTML, CSS, and JavaScript, ensuring consistent performance across devices.
- Optimized layouts, styling, and user interactions to improve usability and user engagement.
- Ensured cross-browser compatibility and mobile responsiveness by following web standards and best practices.

## PROJECTS

**E-Voting System (MERN Stack)** | MongoDB, Express.js, React.js, Node.js, JWT [GitHub link]

- Built a secure full-stack voting platform with user authentication, election creation, candidate management, and one-time voting logic.
- Implemented role-based access control (Admin and Voter) using JWT and backend validations to prevent unauthorized and duplicate votes.
- Designed scalable REST APIs and optimized MongoDB schemas for efficient data handling.
- Built analytical dashboards to visualize election results and voting trends.

**Quiz Web Application** | React.js, JavaScript, CSS [GitHub link]

- Developed a responsive React quiz application with dynamic question rendering, option selection, and score calculation across multiple subjects.
- Managed application state with React components and hooks, and added instant feedback and result summaries to improve engagement.

**Weather Forecast Web App** | JavaScript, OpenWeather API, HTML, CSS [GitHub link]

- Built a weather application that retrieves real-time data from the OpenWeather REST API and displays temperature, humidity, and wind speed.
- Implemented error handling for invalid locations and a responsive UI for seamless use across devices.

## CERTIFICATIONS AND ACTIVITIES

- Frontend Developer Certificate**, Coursera (Meta): built a responsive Flipkart homepage clone using HTML and CSS.
- SQL with MySQL**, Scaler: database design, CRUD operations, joins, aggregate functions, and subqueries.
- CodeQuezt**, Naukri Campus: participated in a competitive coding challenge involving problem solving and algorithmic thinking.
